

FIG. 1.—MACHINISTS' TOOL CHEST.

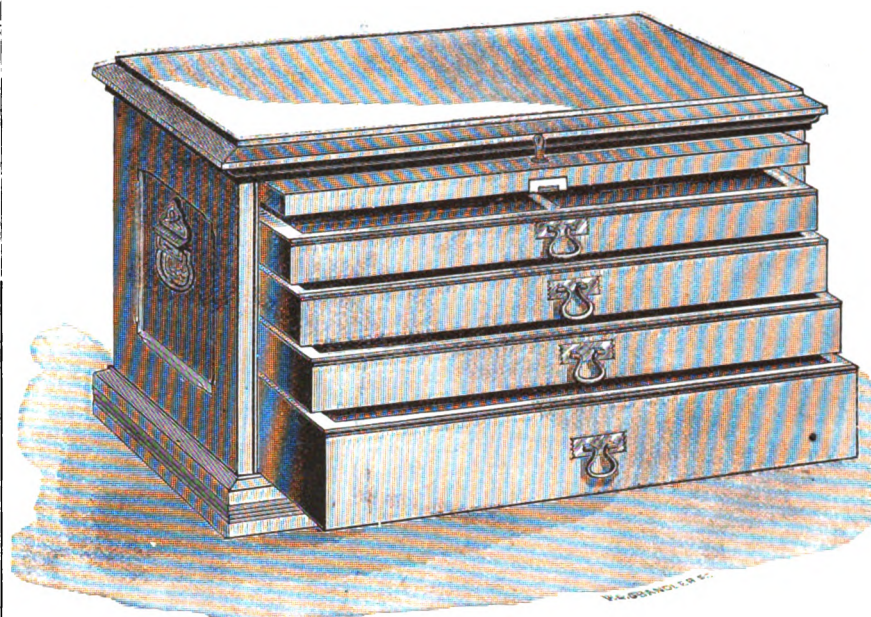

FIG. 2.—MACHINISTS' TOOL CHEST.

**Machinists' Tool Chest or Cabinet.**

We present with this, engravings representing a tool chest or cabinet, which although more especially designed for machinists' use, is equally available for watchmakers, jewelers, amateurs, photographers, &c. Fig. 1 shows the cabinet closed, and Fig. 2 shows it opened. The dimensions are, outside,

These cabinets are made of black walnut, highly polished. The drawer handles are nickel-plated, and the end handles are bronzed. They are provided with a "Yale" lock with two keys. They are manufactured by Goodnow & Wightman, 176 Washington street, Boston, Mass.
